PROFESSIONAL SUMMARY

I am a Fullstack Developer skilled in building responsive and interactive web applications using React, TypeScript, HTML, CSS, nodeJs and express. Experienced in building and also integrating APIs, designing reusable components, and deploying production-ready applications. Passionate about creating clean user interfaces and practical digital experiences. Currently focused on developing modern web projects and expanding expertise in scalable fullstack architecture.

EDUCATION

2018 - 2024

Federal University of Technology, Minna.

BSC. Computer Science

DEVELOPMENT EXPERIENCE

Movie Blog
- MERN stack social blogging platform
- Users can share posts, comments, and bookmarks
- Cloudinary image uploads with JWT authentication
- Responsive UI inspired by modern content platforms

Live Demo | GitHub Repo

Feed Frenzy
- Aggregates articles from multiple sources
- Extracts keywords and detects emerging trends
- Tracks co-occurring signals across media topics
- Designed for newsletter insights and analytics

Live Demo | GitHub Repo

Portfolio Generator and Code Roaster

A fullstack portfolio builder with live preview, multiple React templates, light/dark mode, and export-to-ZIP functionality. And A humorous code roaster that accepts any pasted code and generates witty roasts via AI.
